The poetics of wind . . .

Call it 'the whispering gallery' if you like, and if you happen to love the music of the winds it's the 'Wind Chimes' that rhymes.

• • •

With its clear open spaces and uninterrupted views, Classique Windchimes is a perfect getaway from the hustle bustle of city life.

The Duo-Marvel layout is nestled in the lap of nature as it were, with the CRPF complex with its ample greenery on one side, the Ramanashree California gardens layout with all its green wealth on the other and a waterbody close by.

Serenity pervades here at Duo Marvel and it's the perfect place to come home to a 'hard day's night' after a working day in a metro like Bengaluru. The place is almost midway between the city and the airport, and it's proximity to Bengaluru International Airport makes it attractive to it's personnel to have their homes here.

While Classique Windchimes offers a tranquil living experience with lush green spaces and unpolluted air, it is also convenient for the city bred and the city birds. It is FAR ENOUGH from the 'maddening crowd', but is also CLOSE ENOUGH to Bengaluru to enjoy the benefits of its city life.
